

*Do something...  
...Get involved*

Over the next 12 months treatment and support services for drug and alcohol issues are being redesigned and tendered. The City Council want to get the views from as many people as possible.

People who use services already and people who may need them in the future. Your views really count.

Look out for opportunities to get involved in services or come along to one of the big open day events. There will be people there to help you to take part in the survey
