Purpose of the Dual Diagnosis Forum

To consult with, and give a voice to current and potential service users with issues around substance misuse and mental health, including those with a dual diagnosis. The group discusses service level and strategic issues relating to the commissioning and running of substance misuse and mental health services. It also provides a forum to exchange information and ideas around support and social activities that may assist service users in their recovery in a safe environment.

Also open to family, carers and significant others and professionals with an interest in these issues.
